ABOUT ME

Senior software engineering student with great motives. I am interested in project management methodologies and software testing. I am interested in developing the web on the front end. I am currently studying for a bachelor's degree at the College of Computer Science and Engineering at Jeddah University. I look forward to gaining experience in many technologies, methodologies, and tools. Also, I expand my skill set in understanding software development and contributing to the success of the project.

EDUCATION

Bachelor's in Software Engineering

University Of Jeddah, Jeddah, Saudi Arabia

2021- Present

TECHNICAL PROJECTS

- **Tech Gather** - Web development project:
We are a group of students seeking to develop a centralized platform using HTML, CSS, JavaScript, Bootstrap, and Node.js, aimed at aggregating hackathons and technical conferences for seamless access, ensuring users stay informed about upcoming events.
- **Tech World** - HCI project:
Designed the UI for a programming community website facilitating code sharing, educational video access, and interactive challenges to foster connections among members.

SKILLS

Technical Skills
